It was introduced by Richard L. Daft and Robert H. Lengel in 1986 as an extension of information processing theory. MRT is used to rank and evaluate the richness of certain communication media such as Network society Wikipedia Network society is the expression coined in 1991 related to the social, political, economic, and cultural changes caused by the spread of networked digital information and communications technologies. The intellectual origins of the idea can be traced back to the work of early social theorists such as Georg Simmel, who analyzed the effect of modernization and industrial capitalism on complex social structures. Manuel Castells's Network Society geof Castells is a professor of urban geography at Berkeley. He has written a number of books and articles about geography, the city, and the information society, including a three-volume analysis of contemporary capitalism titled *The Information Age*. Garnham (2004, p. 165) refers to this as "the most sophisticated version" of the theory of the information society. Motivations for sharing tourism experiences through social media are increasingly relevant as part of tourism practices affecting destinations and businesses. Based on a destination-specific survey, this study charts and explores summer holidaymakers' motivations for social media contributions and their willingness to share content through various social media. *International Journal of Communication*.
